Welcome to MidMichigan Medical Center–Midland, a 265-bed hospital affiliated with MidMichigan Health. Located on 180 acres of wooded campus, the Medical Center provides a broad range of health care services to residents of the region.

From its beginning in 1944 as a 48-bed hospital, the Medical Center has established itself as a leader in providing state-of-the-art care. With the completion of its 280,000-square-foot expansion and renovation in 2011, the Medical Center now has all private patient rooms for an environment of superior healing, infection control and patient safety. MidMichigan is the only Medical Center in the Great Lakes Bay Region to have all private rooms. Private rooms are also available at MidMichigan Health’s affiliate, MidMichigan Medical Center–Gratiot in Alma.

For patient and visitor convenience, wireless Internet access is available in most areas of the hospital campus. To help in wayfinding, each floor of the hospital and each set of elevators carries a visual theme, with floors designated by different trees and sets of elevators by different birds.

The Medical Center provides a range of primary care services, outstanding specialty care and emergency care, with excellence in cardiovascular, cancer, neuroscience, obstetrics, orthopedics, rehabilitation, diabetes and other services.

Ancillary services include CT scanning, radiation therapy, chemotherapy, laboratory, pharmacy, cardiac catheterization and magnetic resonance imaging.

Accredited by The Joint Commission, MidMichigan Medical Center–Midland has become a regional referral hospital for the northern and middle areas of the state. The medical staff in Midland includes 185 active physicians representing 55 specialties and subspecialties. The Medical Center employs approximately 2,000 people, making it the second-largest employer in Midland County. It is also a teaching hospital, with a three-year residency program in family medicine and clinical affiliations for training medical students from Michigan State University and Central Michigan University.
